

For Immediate Release

National Liner, LLC to Exhibit at the January UCT Show in Tampa

Houston, Texas -- National Liner, LLC, will be attending and exhibiting at the Underground Construction Technology Show being held in Tampa, Florida from January 19-21, 2010.

This will be the first time National Liner will formally showcase their new 3S Segment Panel System designed for large diameter pipe and culvert rehabilitation, according to Ray Pavlic, Vice President of Sales and Marketing. Their booth will also feature their relatively new Complete Lateral Relining System and their flagship product, the National Liner CIPP system. If you plan on attending, look for National Liner at booth #606.

National Liner, LLC, is comprised of a nationwide network of professionally trained and experienced trenchless rehabilitation contractors. To date, the group has installed more than 12 million feet of its flagship product, the National Liner CIPP system.
